

*NORTH READING, MA 01864*

Hello [REDACTED] I'm going to cut to the chase. I know about the secret you are keeping from your wife. More importantly, I have *evidence* of what you have been hiding. I won't go into the specifics here in case your wife intercepts this, but you know what I am talking about.

You don't know me personally and nobody hired me to look into you. Nor did I go out looking to burn you. It is just your bad luck that I stumbled across your misadventures while working a job around North Reading. I then put in more time than I probably should have looking into your life. Frankly, I am ready to forget all about you and let you get on with your life. And I am going to give you two options that will accomplish that very thing. Those two options are to either ignore this letter, or simply pay me \$2,500. Let's examine those two options in more detail.

Option 1 is to ignore this letter. Let me tell you what will happen if you choose this path. I will take this evidence and send it to your wife. And as insurance against you intercepting it before your wife gets it, I will also send copies to her friends and family. So, [REDACTED] even if you decide to come clean with your wife, it won't protect her from the humiliation she will feel when her friends and family find out your sordid details from me.

Option 2 is to pay me \$2,500. We'll call this my "confidentiality fee". Now let me tell you what happens if you choose this path. Your secret remains your secret. You go on with your life as though none of this ever happened. Though you may want to do a better job at keeping your misdeeds secret in the future.

At this point you may be thinking, "I'll just go to the cops." Which is why I have taken steps to ensure this letter cannot be traced back to me. So that won't help, and it won't stop the evidence from destroying your life. I'm not looking to break your bank. I just want to be compensated for the time I put into investigating you. \$2,500 will close the books on that.
